

Alberta K-6 teachers are invited to participate in learning opportunities to enhance their confidence and fluency in the teaching of mathematics.

What's New for 2016 - 2017

For Parents

Parent Letters

Draft examples of letters for communication with parents are available on the [Learning Portal](#). Their aim is to provide a better understanding of the big ideas in each of the topic areas. These can be sent home as a letter to parents or in monthly newsletters. Please download these and adapt to best meet your communication needs.

For Presenters

Presentation Resources to Share with Colleagues

Would you like to further explore any of the EMPL topics? You can access full presentations on the [Learning Portal](#) and adapt them to your professional learning needs.

Twitter

Join the conversation on Twitter!

We'll share what's happening in your region as well as tips, ideas and research about EMPLO topics.

Contests

We have added two monthly contests:

- Follow us on Twitter! Answer a monthly question and be entered to win a prize.
- Check out the "Try This" section within Additive Thinking and Multiplicative Thinking on the [Learning Portal](#) to find out more about the "Try This" contest and enter to win a prize!

Check out the [Learning Portal](http://learning.arpdc.ab.ca) (at <http://learning.arpdc.ab.ca>) or contact your Regional Consortium for updates and more information regarding this project.

Acknowledgement: The *Elementary Mathematics Professional Learning* project is led by ARPDC and funded through a grant from Alberta Education to support implementation.
